INVITATION

Dear Attendees,

Mind Authors invites you to the 2nd International Summit on Materials Science & Engineering (Materials Evolution 2026), taking place September 14–15, 2026 in Budapest (in-person) and September 16, 2026 online via Zoom.

Centered on “Materials Shaping the Future: From Fundamentals to Frontier Technologies,” the conference brings together scientists, professors, students, and industry professionals to share research, explore innovations, and network globally.

The program includes keynote talks, workshops, panel discussions, and presentations, offering valuable opportunities for learning, collaboration, and showcasing advancements in materials science.

Best Regards,
Materials Evolution 2026
Mind Authors Inc.

ABOUT THE EVENT

Materials Evolution 2026 offers a valuable platform to connect with global experts in Materials Science & Engineering through networking sessions, breakout discussions, and collaborative opportunities.

The conference features keynote speeches, workshops, poster presentations, a young research forum, and career guidance, bringing together researchers, academics, and industry professionals worldwide.

It also provides organizations a chance to showcase innovations and services. Join us in Budapest to exchange ideas, expand your network, and explore the latest advancements in the field.

WHO SHOULD ATTEND ?

The 2nd International Summit on Materials Science & Engineering brings together leading experts, researchers, academicians, and industry professionals to explore current trends, future possibilities, and key challenges in the field.

This three-day, knowledge-driven event highlights innovative ideas and strategies that support professional growth and advance the role of materials science in shaping a better future. Join us to share your research and contribute to impactful developments for society.

REASONS TO ATTEND BUDAPEST- 2026

- It will be a remarkable event uniting experts, innovators, and leaders to explore the newest developments in materials science.
- Discover how other research can play a key accelerator role in your work and give you a competitive edge in achieving precision in desired results. Discover better ways to innovate, collaborate, work, and report.
- Get inspired by talking face-to-face with thought leaders, subject matter experts, and peers. Tap into their knowledge; discover innovative services that can benefit your research work.
- With participants representing many countries, your ability to engage with global sustainability leaders and your opportunity to see your work from a global perspective will be worth it.
- Each presenter will have some time for a Q&A session after their presentation, where you might receive questions about a challenge in your workflow or are looking for advice on implementing new techniques in your work. Hence, you will get some solutions and tips, which might be helpful for you.
- An idea is usually generated intentionally and created unintentionally. Ideas are often formed during brainstorming sessions or discussions.
- Bring your expertise to the local level and help the community through collaboration and networking. If you would like to speak at the conference, please submit your content ideas and boost your professional status.

SCIENTIFIC SESSION HIGHLIGHTS

- Fundamentals of Materials Science: Structure and Properties
- Next-Generation Materials for Sustainable Industry
- Materials for Clean Energy and Environmental Applications
- Smart and Functional Materials: Innovations in Sensing and Actuating
- AI and Machine Learning in Materials Design and Discovery
- High-Performance Polymers and Composites for Advanced Engineering
- Quantum Materials and Their Applications in Electronics
- Biomaterials: From Medical Implants to Tissue Engineering
- Materials for High-Temperature and Harsh Environments
- Advanced Manufacturing: 3D Printing and Additive Manufacturing
- Materials for Environmental Remediation
- Computational Materials Science and Materials Informatics
- Industrial Applications of Biomaterials in Packaging and Sustainability
- Policy and Innovation: Shaping the Future of Materials Science
- Ceramic and Glass Materials, Metals and Alloys for Advanced Applications
- Corrosion Science and Anti-Corrosion Materials
- Materials for Aerospace, Automotive, and Defense Industries
